# EXP.NO: 5 - Reports, Dashboards, and UI Builder

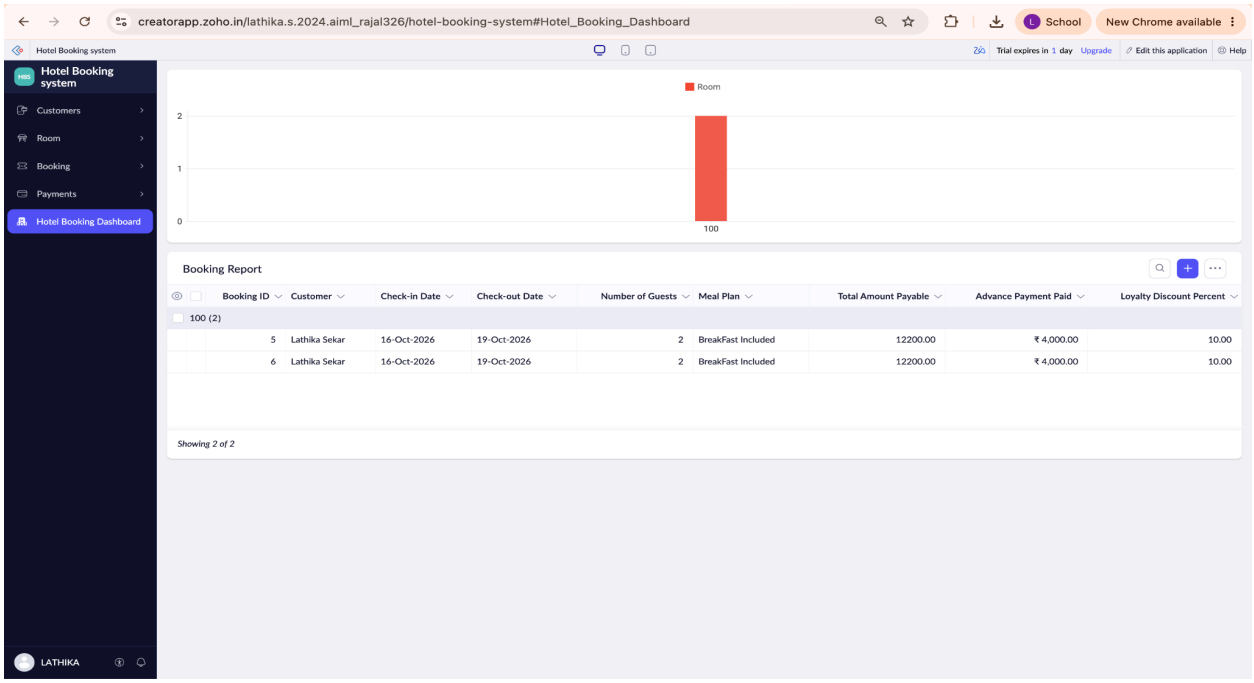

## Aim

To create and configure **reports, dashboards, and user interface pages** in Zoho Creator for the Hotel Booking System, and to visualize booking information using charts and reports.

## Procedure

1. Open the **Hotel Booking System** application in Zoho Creator.
2. Open the **Booking Report** to display the booking records.
3. Configure the Booking Report by **grouping the records based on Room**.
4. Enable the option to **show the record count for each group**.
5. Create a new page named **Hotel Booking Dashboard** using the Page Builder/UI Builder.
6. Add a **Column Chart** to the dashboard.
7. Configure the chart using the **Booking** form as the data source.
8. Select **Room Number** for the X-axis and **Count of Room Number** for the Y-axis.
9. Add/embed the **Booking Report** in the dashboard page.
10. Test the dashboard using sample booking data.
11. Verify that the chart displays the booking count and the report displays the booking details correctly.
12. Save the dashboard and verify the final output.

## Result

The Booking Report and Hotel Booking Dashboard were successfully created and tested in Zoho Creator.
